The people there declined to receive him, on the ground of their utter inability to support him, and under these circumstances other Maynard did not remain with his charge. Mr. Wilson did not consider either the church or Brother Maynard to blame in the premises.

Mr. Maynard said he went to Blandford on his way from Conference, called a meeting of the stewards, and proposed to serve them for the ensuing year. They said it was impossible to support a married manthat they had previously been supplied by a local preacher. THE BOARD OF MISSIONS-ITS WORK. Dr. A. W. Wilson, missionary secretary, addressed the Conference. He desired that

the annual report of the Board of Missions should be by presiding elders and others placed where it could do most good, as it contained nearly all the information he was able to give the Conference. He informed the Conference that a Young

man, Rev. Mr. Reid, of the Kentucky Conference, sails next month for China, and that the Kentucky Conference has pledged his support for five years. While there has been no recent addition

to the force employed in mission work in Mexico, there is more rapid progress than in any field we occupy. He recently met with the superintendent

of Mexican missions, Rev. Mr. Sutherland, at the Northwestern Texas Conference, who reported the work as more and more promising in many of its phases.

Dr. Wilson said it was rather disheartening for a man who occupied the responsible place in which the Church had placed him to go up and possess the land for Christ.

In the vast empire of Brazil we have but one poor little fellow, Brother Ransom, who stands alone in the city of Rio de Janeiro, who is often distressed and disheartened with his burden, increased by the consciousness of imperfect sympathy at home.

The Master sent off seventy missionaries in the little State of Palestine, and sent Rev. R. A. Compton at 74 P. M. them by two and two, while we allow one brave man to go alone to an empire many times larger than Palestine.

When a man is cut off from all sympathy, and with altogether inadequate resources for doing the work before him, I don't wonder at his becoming discouraged sometimes.
